

NCR Personas™ 90e

MORE ↗ RESULTS

What is the Personas 90e?

The Personas 90e gives a new look to NCR's tried and tested free-standing ATM solution. This compact, convenient ATM can still be easily installed on a 914mm (36") island, but now even more functionality has been added to ensure that the Personas 90e you buy today continues to deliver well into the future.

As well as traditional cash dispense functionality, the Personas 90e offers the very latest in intelligent deposit allowing cash and cheques to be inserted directly into the ATM without using an envelope.

Details of all amounts deposited, including images of the cheques, can be displayed on both the ATM screen and the receipt - providing customers with instant proof of their deposit.

Further cost reductions can be derived from NCR's intelligent deposit solution as a result of the Personas 90e's dual safe enclosure. Cheque deposits and cash deposits are retained separately within the ATM so that cheques can be retrieved quickly and easily without the need for additional security.

MORE RESULTS

- Reduce the cost of taking deposits by 60% with intelligent deposit at the ATM.
- Generate more revenue from more transactions. Drive-up ATMs can generate up to 50% more transactions than walk-up.
- Generate revenue and increase product awareness by using the Personas 90e as a powerful promotional tool. Experience shows that 32% of consumers could recall an on-screen promotion after 2 months.

The Personas 90e offers:

- The Personas 90e can be upgraded at any time with the addition of the very latest in intelligent cash and cheque deposit technology - protecting your investment into the future.
- A free-standing solution that can be installed on-premise or off-premise, as a drive-up or a walk-up, without the need for a building or a kiosk.
- High quality sound and graphics, a large sunlight readable, flat-panel SVGA screen and exterior touchscreen option offer a complete multimedia experience supporting a host of new revenue-generating transactions that can be fulfilled quickly and easily from any vehicle. The unique audio system also enhances this experience.
- The Personas 90e is firmly anchored with six bolts - offering unrivalled installation security.
- A fully colour customisable solution. NCR understands that drive-up ATMs can be your customer's main point of contact with you and it must match and reinforce your brand identity.

Why NCR?

NCR's drive-up solutions are the first to offer intelligent cash and cheque deposit in a drive-up environment, reflecting the importance of drive-up as a self-service delivery channel.

The Personas 90e does not require an additional canopy. Integrated advertising panels allow for branding and other promotions, while the design of the ATM provides some protection from the elements during servicing.

The Personas 90e offers a high level of security and standards compliance. This includes countermeasures to ATM fraud, support for EMV, Triple DES and Remote Key Management, and public & private audio.

NCR is committed to delivering drive-up solutions that are ergonomically designed to precise standards - delivering maximum reach and usability.
